Phone—(317) 328-5660
See Parent Co. Section for full profile.

State directories in print identify opportunities by 5 major sections:

- **By City:** pinpoint your target market by location. Each firm is listed alphabetically and complete company profiles contain up to 30 vital facts, including names of executives, # of employees, home office, etc.

- **By S.I.C. Number:** work your leads by what they make, using seven basic facts — key contact name, # of employees, address, phone, etc.

- **By Company Name:** an alphabetical index with address and phone for quick look-up.

- **By Parent Company:** to spot linked companies, this sections gives name, address, phone and executives with all the branches, division and subsidiaries in the state.

- **By Product:** find all companies in each industry. Ideal for both buying and selling.

CD-ROMs come in three versions to fit any promotional budget:

Full Version: Contains all firms regardless of size. All the essential facts you need to determine your market potential are easily searchable and sortable by 12 criteria. You can print labels and reports or export data for mail merge, spreadsheet and database applications.

20+ Employees: This version eliminates smaller manufacturers and contains only those firms employing 20 or more workers. Software features are identical to the version above.

View Only Version: Contains all firms for unlimited sorting as above. Print single profiles. Data exporting, merge and label printing are not available with this version.
